

App. No.: 10/800,608  
Amdt. Dated: April 27, 2006  
Reply to Office action on Jan. 13, 2006

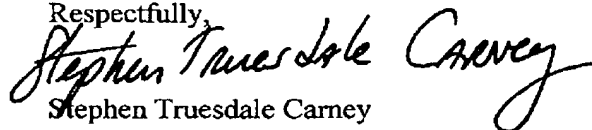

**Remarks/Arguments**

In the specifications, the paragraph [0006] was amended to set forth the definition of the abbreviations used in the application for the terms low-density lipoproteins cholesterol and high-density lipoproteins.

In the new Claims 13 and 14, I better define the invention and the claims, as recited, overcome the rejection regarding prior art. Claims 1 – 12 are cancelled and replaced with new Claims 13-25 which cover which are referenced corrected versions of the Claims 2-12 which are cancelled.

By way of reference, in response to the January 16, 2006 action letter, the Applicant filed the Affidavit of Lawrence D. Rink, a physician, regarding Folic Acid.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully,  
  
Stephen Truesdale Carney
